

Energy-related partnering opportunities

June 2026

Renewable energies

Business Offer BOUA20260604004

[The Ukrainian agency specializes in finding business partners \(investors, equipment manufacturers, and biomethane buyers\) for collaboration in the biomethane production sector and the supply of biomethane](#)

Business Offer BOLT20260604012

[Lithuanian Certified Wood Pellet Supplier and Biomass Logistics Company Seeking Distributors, Wholesalers, and End-Users for Sustainable Biomass Products](#)

Business Offer BOGR20260617011

[Offshore wind industry cluster based in Greece is offering its knowledge and services for outsourcing agreements and looking for investors](#)

Technology offer TOCZ20260615037

[Czech research organization seeks R&D consortia for hydrogen infrastructure projects as a technical partner for material compatibility testing and welding optimization](#)

Other topics (energy conservation, storage, distribution, etc.)

Technology offer TODE20260528004

[German SME offers battery remanufacturing know-how for Horizon Europe projects on next-generation batteries for mobility \(HORIZON-CL5-2026-10-D2-03\)](#)

Business request BRFR20260608035

[Guadeloupean company looking for a SDMO spare parts distributor](#)

Business Offer BOTR20260610020

[Turkish engineering company offers industrial energy efficiency and decarbonisation solutions for energy-intensive industries](#)

Business Offer BOFI20260601026

[A Finnish SME is searching for partners for software solution comparing, visualising, analysing and managing manually collected industrial measurement data](#)

Business Offer BOCY20260611001

[A long-duration energy storage system, designed for supply of affordable, renewable electricity and heat at all hours of the day](#)

Business Offer BOLV20260615010

[Latvian company offering kerb-integrated EV charging infrastructure with V2G capability and digital energy management platform seeks investors and commercial/ deployment partners](#)

Business Offer BODE20260512032

[Seeking Investors for Ultra-Thin Active Insulation Technology](#)

Technology offer TODE20260513015

[Disruptive solution: Ultra-thin 26 mm insulation system for architects, roofers and carpenters in space-critical renovation projects](#)

Technology offer TOCZ20260615035

[Czech research organization seeks R&D consortia for energy infrastructure projects as a technical partner for material testing and degradation analysis](#)

Business Offer BOGR20260622015

[A company of Greek-Serbian interests, with projects involving \(a\) electricity storage stations in Greece and \(b\) photovoltaic plants combined with battery storage systems in Serbia , is seeking investors for a commercial or investment agreement](#)

Research & Development Request RDRES20260513025

[AI-enabled semantic digital twin platform for measurable cost, carbon, energy and lifecycle decisions in sustainable construction](#)

Business Offer BOSI20260616011

[Distributors and strategic partners sought for smart AI-driven local ventilation systems](#)

Technology offer TOES20260626011

[Spanish engineering firm offers advanced bio-carbon nanomaterials from agri-food residues for next-generation supercapacitors and batteries, new materials or custom developments under r&d and commercial with technical assistance agreements.](#)

Business Offer BOIE20260630015

[Irish advanced materials company offering biomass-derived graphene for construction, infrastructure and energy storage applications. The company is seeking commercial, technical and research partnership agreements.](#)

Business Offer BOPL20260611008

[A Polish company dealing with GIS and municipal energy planning offers its services, including heat demand mapping services for heat transition projects under commercial agreement](#)
