

Energy-related partnering opportunities

July 2026

Renewable energies

Business Offer BOTR20260701025

[Turkish SME Offering Innovative Biogas Upgrading and Biomethane Production Technologies Seeks Commercial Partnerships with Technical Assistance](#)

Business Offer BOGR20260709008

[Energy tech company from Greece seeks commercial agreements with Italian market actors, offering specialized Power Plant Controllers \(Controllore Centrale d’Impianto – CCI\) compliant with resolutions 385/2025 and 564/2025 for renewable infrastructures.](#)

Technology offer TOFR20260710016

[Compact microchannel methanol reformer for decentralised low-carbon hydrogen production](#)

Technology request TRDE20260604013

[Looking for innovative products and technology to improve safety and sustainability in mining and renewable energy projects](#)

Business Offer BOLT20260714023

[A Lithuanian company providing rope access and wind turbine maintenance services is highly interested in exploring a potential partnership under a commercial or outsourcing agreement.](#)

Research & Development Request RDRGR20260721004

[Partners sought for LIFE CET project on inclusive agrivoltaic energy communities, capacity building and citizen participation](#)

Research & Development Request RDRLV20260716012

[Partner Search: HORIZON-CL5-2026-09-D3-03 – Advanced Smart Modular Wind Energy Systems for Future Wind Power Solutions](#)

Business Offer BOGR20260729002

[Greek renewable energy company offering engineering, procurement, construction energy storage solutions, operation and maintenance services, seeks international commercial and outsourcing agreements, as well as renewable energy investments](#)

Business Offer BODE20260721006

[German developer of compact vertical-axis small wind turbines and hybrid renewable energy systems is looking for investment, commercial distribution and R&D cooperation partners for international market entry](#)

Other topics (energy conservation, storage, distribution, etc.)

Business Offer BOUA20260708022

[Pay-for-performance fuel-saving service for heavy-duty vehicle fleets](#)

Business request BRUA20260708023

[Seeking heavy-duty fleet operators for a no-cost fuel-saving pilot](#)

Business Offer BOLV20260709021

[Latvian IoT company offers a smart remote meter reading solution for water, heat, electricity and gas, and is searching for distribution and installation partners across Europe](#)

Technology offer TOAT20260713007

[Patented mineral-cast infrared thermal storage heating technology \(higher comfort, lower costs\) seeking licensees, distribution and joint venture partners](#)

Research & Development Request RDRNL20260710005

[A Dutch Company active in Energy Hub development is looking for consortium partners to participate in proposal for Eurostars 11 call](#)

Technology offer TOLU20260713030

[Thermal compressor converting low-temperature waste heat into fluid pressure](#)

Business Offer BOES20260715011

[Spanish company offering integrated ESG advisory for real estate and infrastructure, covering sustainability strategy, life cycle assessment, carbon footprint, energy efficiency and green building certifications.](#)

Business Offer BODE20260716006

[German manufacturer specialising in customer-specific high-current power transmission systems and busbar solutions is looking for commercial partners.](#)

Technology offer TOGB20260717019

[UK advanced thermal management solutions and additive-manufactured heat exchangers for aerospace, hydrogen and energy systems](#)

Research & Development Request RDTR20260721005

[A European consortium seeks VET center and/or Universities for a Horizon Europe project on green and digital competences in the energy sector.](#)

Research & Development Request RDRFR20260727003

[HORIZON-CL4-2026-Materials – French technological center is searching for brass component manufacturer \(End-users\) active in the energy sector, fluid distribution for pre-industrial validation of innovative lead-free brass alloys](#)

Business Offer BOTR20260727017

[Turkish manufacturer of high-efficiency residential stoves and cookstoves seeks partners for commercial agreements](#)

Business Offer BOTR20260727019

[Turkish manufacturer of portable outdoor pellet heaters and stoves seeks partners for commercial agreements](#)

Technology offer TODE20260729020

[German SME offers expertise and technology in electroplating and surface engineering for projects in the fields of electrochemistry, hydrogen technologies, and battery systems](#)

Technology offer TOES20260730004

[Spanish SME developing an AI-enabled semantic digital twin platform for measurable cost, carbon, energy and lifecycle decisions in sustainable construction seeks consortia in Horizon Europe calls](#)
